Meeting the Prime Minister Scott Morrison

Members of CID met with the Australian Prime Minister Scott Morrison.

We met the Prime Minister with other people who have a disability.

We all talked about what is good about the NDIS.

We also talked about how the NDIS could be made better.

We said the NDIS needs to have better information for people with intellectual disability.

We said it needs to be more flexible.

We said we need to be able to trust the NDIS.

The Prime Minister said he wants to improve the NDIS “to make sure it is everything that we want it to be”.

It was a good meeting.
