

# Everyday for everyone

Every day, people with disabilities face major barriers when doing everyday things and being fully included in the community. The NSW Government has clear leadership responsibility for addressing these barriers.

For people with intellectual disability, key challenges include finding, understanding and using information about government services, navigating the public transport system and getting a job in the public sector.

**Inclusion is a Human Right.**

**As your elected representative I will work to ensure that**

**A fully included life for people with intellectual and other disabilities is a top priority of the NSW Government.**
